

# ACADEMIC ADVISING

Our team is skilled at navigating educational and career challenges to ensure positive outcomes.

## Who We Are

**Veterans. Families. Caregivers. Survivors.**

### *Military Veterans of America*

is the nation's premier Veterans advocacy organization dedicated to serving our transitioning military and Veterans. We are led by a team of professionals with extensive experience advocating on behalf of the Veteran community.

"The Next Step" program is dedicated to helping Veterans transition into the next phase of their lives, whether it be a new career or utilizing their GI Bill benefits. It offers valuable leadership mentoring and learning opportunities to support personal growth and skill development, along with workshops focused on leadership, academic/career exploration, and professional development.

## How We Help

Navigating academic and career challenges after military service can be intricate, involving not only the decision of which educational institution to attend but also determining your interests and exploring your career options. The Next Step program will help navigate you towards your educational and career goals. For additional resources, you can also book our webinars to receive valuable guidance and support.

We provide free webinars to colleges, universities, nonprofit groups, communities, and military personnel upon request, with the goal of easing the transition of Veterans from military service to civilian life by sharing essential resources and information. These webinars are designed to empower Veterans with the knowledge and support they need to thrive in their post-military journeys.
