

WOMEN'S HEALTH AT VA

MVoA outlines the comprehensive healthcare services and resources specifically tailored to meet the unique needs of women Veterans through the Veterans Affairs (VA) healthcare system.

Women's Health

VA is committed to delivering high-quality, comprehensive health care services for women Veterans, recognizing and addressing their unique health care needs. Women Veterans are encouraged to reach out to their local VA facilities and the Women Veterans Health Program for personalized care and support.

1. Women Veterans Health Program: The Women Veterans Health Program within VA is dedicated to providing gender-specific health care, addressing the diverse medical needs of women Veterans.

2. Primary Care Services: Women Veterans have access to a full spectrum of primary care services, including preventive care, routine screenings, and management of chronic conditions.

3. Reproductive Healthcare: VA offers comprehensive reproductive health care services, including family planning, maternity care, and infertility evaluation and treatment.

4. Gynecological Care: Specialized gynecological care is available, covering annual exams, screenings, and treatment for gynecological conditions, ensuring the overall well-being of women Veterans.

5. Mental Health Support: Tailored mental health services address the unique experiences and challenges faced by women Veterans, including counseling for post-traumatic stress disorder (PTSD), military sexual trauma (MST), and other mental health concerns.

6. Maternity and Newborn Care: Maternity care services include prenatal care, delivery, and postpartum support, with VA facilities equipped to meet the needs of pregnant Veterans.

7. Military Sexual Trauma (MST) Services: VA provides confidential and sensitive care for Veterans who have experienced military sexual trauma, offering counseling and support to address the physical and mental health effects.

8. Comprehensive Breast Care: Women Veterans receive comprehensive breast care, including mammograms, breast health education, and support for breast cancer survivors.

9. Women Veterans Call Center: The Women Veterans Call Center (1-855-VA-WOMEN) provides information about VA services and resources, assisting women Veterans in navigating the healthcare system.

10. Military Cultural Competency: VA health care providers undergo training to ensure cultural competency in addressing the unique needs of women Veterans, creating a supportive and inclusive environment.
